Judge Tires of Long Dispute and Settles Fight by Paying \$2
SAN FRANCISCO, April 7.—Police Judge L. T. Jacks listened until weary of arguments of attorneys and health board inspectors over the payment for removal of garbage from the rear of a Mission street market. "How much will it cost to remove this garbage?" he finally queried, warily. He was told it would be \$2. He produced two silver dollars and tossed them on his desk. "Take it and go," his gesture said and the case was ended.

GALLI-CURCI LOSES GEMS.

Two Girls Vanish With Jewels Valued at \$45,000.

SAN JUAN CAPISTRANO, Calif., April 7.—Mrs. Galli-Curci, opera singer, was robbed yesterday of jewels and valuables, which she said were worth \$45,000, when two girls fled with a jewel case that had been left by the singer's maid in a cafe rest room. The singer and her party had stopped here for luncheon. The singer, her husband, Homer Samuels, and the maid departed at once for Los Angeles to aid in the search for the girls. San Juan Capistrano is the usual midway point for automobile parties between San Diego and Los Angeles.

BRITAIN'S INDUSTRY
IN GLOOMY SETTING

U. S. Business Survey Shows Unemployment May Follow Conflict.

By the Associated Press. LONDON, April 7.—A gloomy picture of the British industrial situation is presented in the American Chamber of Commerce summary of business and economic conditions for March.

After some months of peace, severe industrial strife is again being experienced. The question whether 600,000 skilled engineers will be forced into idleness hangs on negotiations between employers and the unions, brought about by the intervention of Prime Minister Lloyd George.

More than a million persons will be without jobs unless a settlement is speedily reached, the report points out. The engineering dispute is concerned with the question of overtime, while the ship building workers are dissatisfied due to a bonus reduction by installments of 26 1/2 shillings weekly. Ships docked for repairs already are being diverted to foreign ports.

Cotton Mills Cut Prices.

Lancashire cotton manufacturers have given notice of a 75 per cent reduction in the standard price list, roughly, six shilling a pound, but it is not expected such a large reduction will be made. The February foreign trade returns, published in March, were not encouraging, as compared with January, both imports and exports substantially declined. Exports dropped off nearly 5,000,000 pounds sterling and imports more than 7,000,000, some of the decrease being due to the short month.

A feature of the returns was that, apart from the so-called invisible exports, an actual favorable trade balance of £24,000 was shown for the first time in a century. In 1913 the adverse trade balance amounted to £134,000,000, and in 1920 to £374,000,000. The February balance was not due, however, to increased exports, but to decreased imports.

Shipments of British coal continue at a high level, moving at a rate of 68,000,000 tons yearly, as compared with 98,000,000 in 1913. The export price in seventeen shillings a ton, in anticipation of the American coal strike, frequent inquiries were made in the London freight markets for voyage rates to Canadian ports with coal. Inquiries were also received from Central American and other markets usually supplied from the United States.

Higher Pig Iron Output.

The British production of pig iron in February was 300,000 tons, the highest since March, 1921. On March 1 the furnaces in blast numbered 101, as against ninety on February 1. Steel production showed an increase for the first time in many months, being 415,000 tons, as against 327,000 tons in January.

The downward movement in the cost of living continued. On March 1 the average level of retail prices, according to the ministry of labor, was 86 per cent above that of July, 1914, as compared with 88 per cent in February of this year, and 141 per cent in March, 1921. A downward trend also prevails in wholesale prices, which showed a decline of 1.3 per cent from February on 150 articles, including foodstuffs and industrial materials.

Figures just published show that big strides have been taken by the British dye-stuff industry. The present production amounts to 35,000 tons yearly, as against a maximum output of less than 2,000 tons in 1913. The American Chamber of Commerce has completed a special survey of the British market for American goods and chemicals, which it is prepared to send to interested members in the United States, and another on fresh and dried fruits is in the course of preparation.

RAPID OLD AGE PENSIONS.

LONDON, April 4.—Opposing a labor motion in the house of commons today in favor of granting universal old age pensions at the age of seventy years, irrespective of the pensioner's means, Sir Robert Stevenson Horne, chancellor of the exchequer, emphasized the grave financial problem confronting the nation in the coming years, which precluded the embarking on any additional expenditure such as that proposed, involving £16,000,000 yearly.

Virginian Inherits Estate of Briton, Drowned on Voyage

SPECIAL DISPATCH TO THE STAR. CULPEPER, Va., April 7.—Hyton Aubrey Briscoe, a son of Mrs. Fleming Briscoe of Gordonsville, has been notified of his succession to the estates and title of his cousin, Sir Hyton Ralph Briscoe of England, who was drowned January 31, when he fell overboard from a steamship en route to Australia.

LEN SMALL TRIAL
AGAIN POSTPONED

Hearing on Charge of Conspiracy to Embezzle Set by Court for April 17.

By the Associated Press.

WAUKEGAN, Ill., April 7.—Gov. Len Small's trial on charges of conspiracy to embezzle state funds was postponed again yesterday, this time until April 17, after both sides reached an agreement on a method of selecting a jury. Both also agreed that there would be no further delay in starting the case. Louis E. Beckman, cashier of the First Trust and Savings Bank of Kankakee of which Gov. Small is president, testified that no record of the governor's account in his bank prior to last November could be found. Norman Griffin, cashier of the Grant Park Trust and Savings Bank of Grant Park, said that books and papers of that bank bearing on the case were burned by a janitor, who has since died. James H. Wilkerson, assistant attorney general of Illinois, put Mr. Beckman and Mr. Griffin on the stand in an announced effort to locate books and records subpoenaed by the state, and which, he said, had not been produced. Judge Edwards ordered a subpoena issued for Roy Taylor, assistant cashier of the Kankakee bank, and ordered an examination of some books of the bank, produced by Cashier Beckman, to proceed. The examination of Griffin will continue today. Under the agreement on the selection of a jury, three special jury commissioners were appointed. They will prepare a list of 2,200 names, starting with the second name on the polling list of each precinct in the county, in the 1920 presidential election and checking every fourth name. From this list, placed in a special jury box, the regular jury commissioner will draw the successive venires.
